

Iteration 2 (March 13th)-3 weeks

- As employee, I want to log into and logout of the system
- As an employee I want to change my display information (name, photo,...), and password inside the system
- As a manager I can assign or change the Access rights to other employees
- As a customer support employee, I want to help a customer returning an item bought previously

Use case #1: As an employee, I want to log into and logout of the system

When opening the system user will be presented with a login screen

When they click 'Employee Login' They will be presented with the following screen:

Employee Login

Name:

Password:

Aaron

Boss

Boss

Cody

Fred

Happy

Johnny

M-K

Toryn

aaron

They select the user they want to login as, click select employee, enter their password and click login. If they successfully login they will get the main screen.

Store Management System

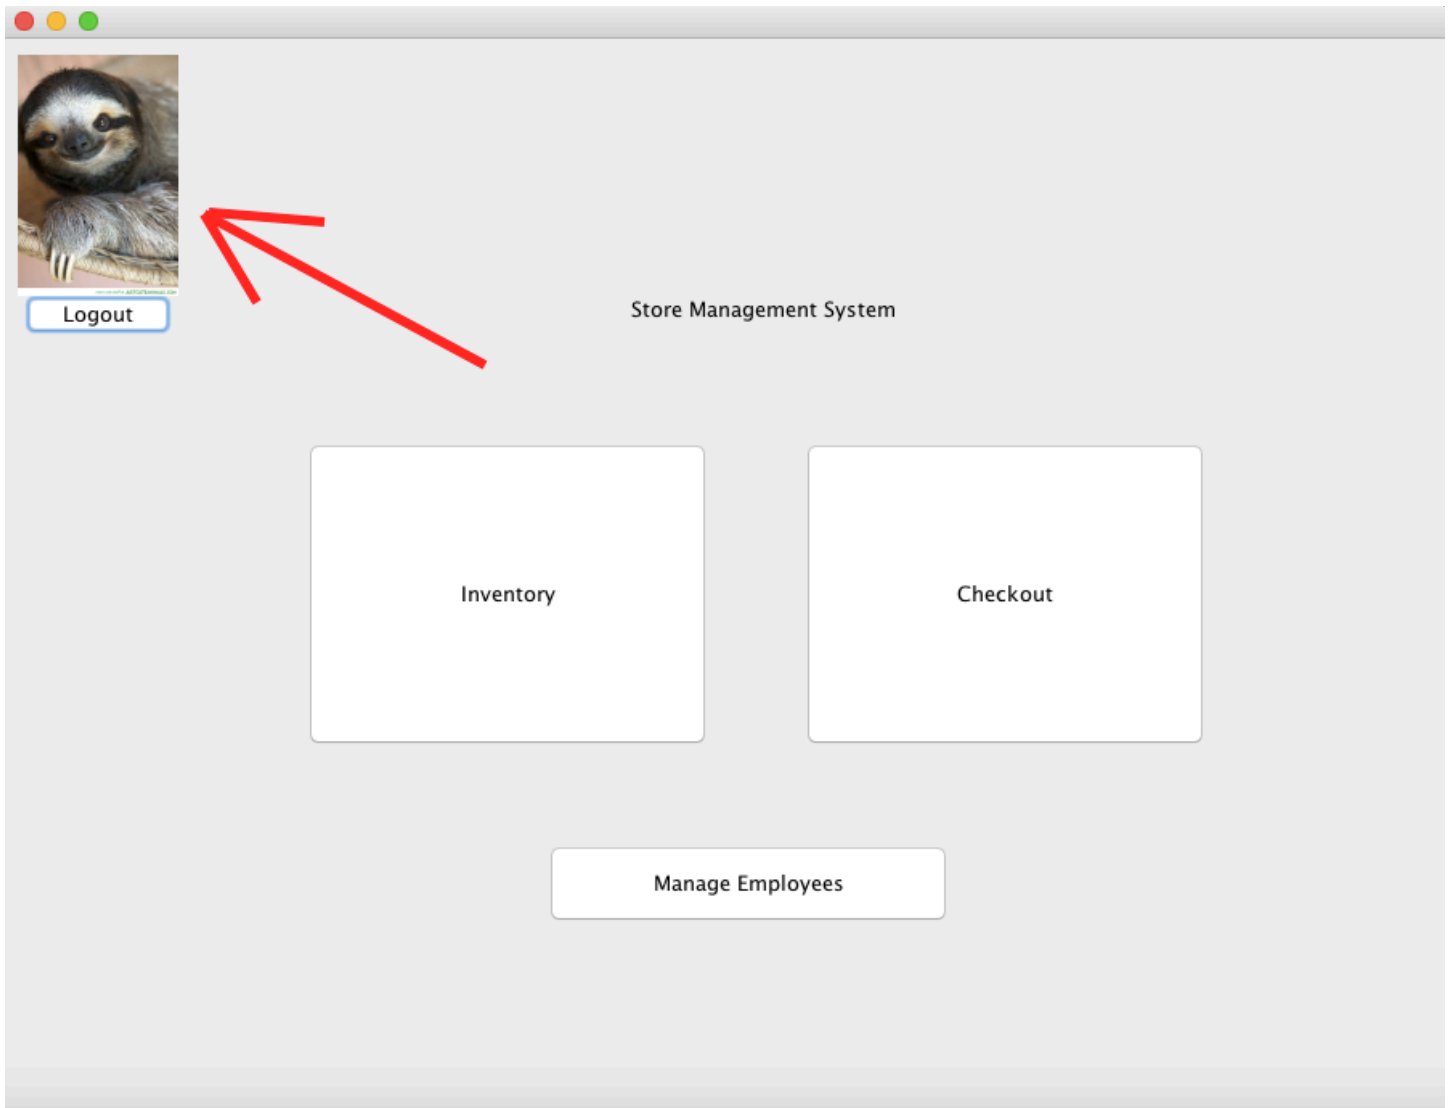

Inventory

Checkout

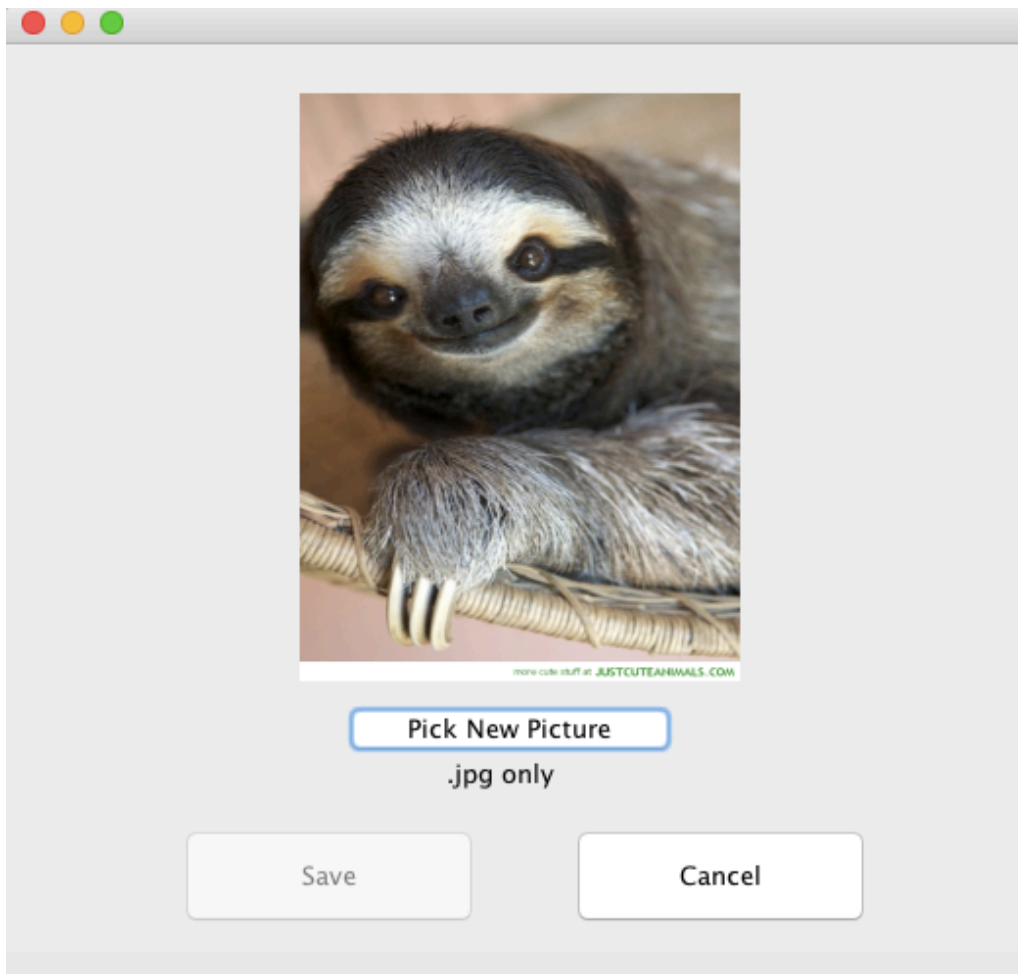

They can log out by clicking logout in the top left, and will be brought back to the original login screen.

Use Case #2: As an employee I want to change my display information (name, photo,...), and password inside the system

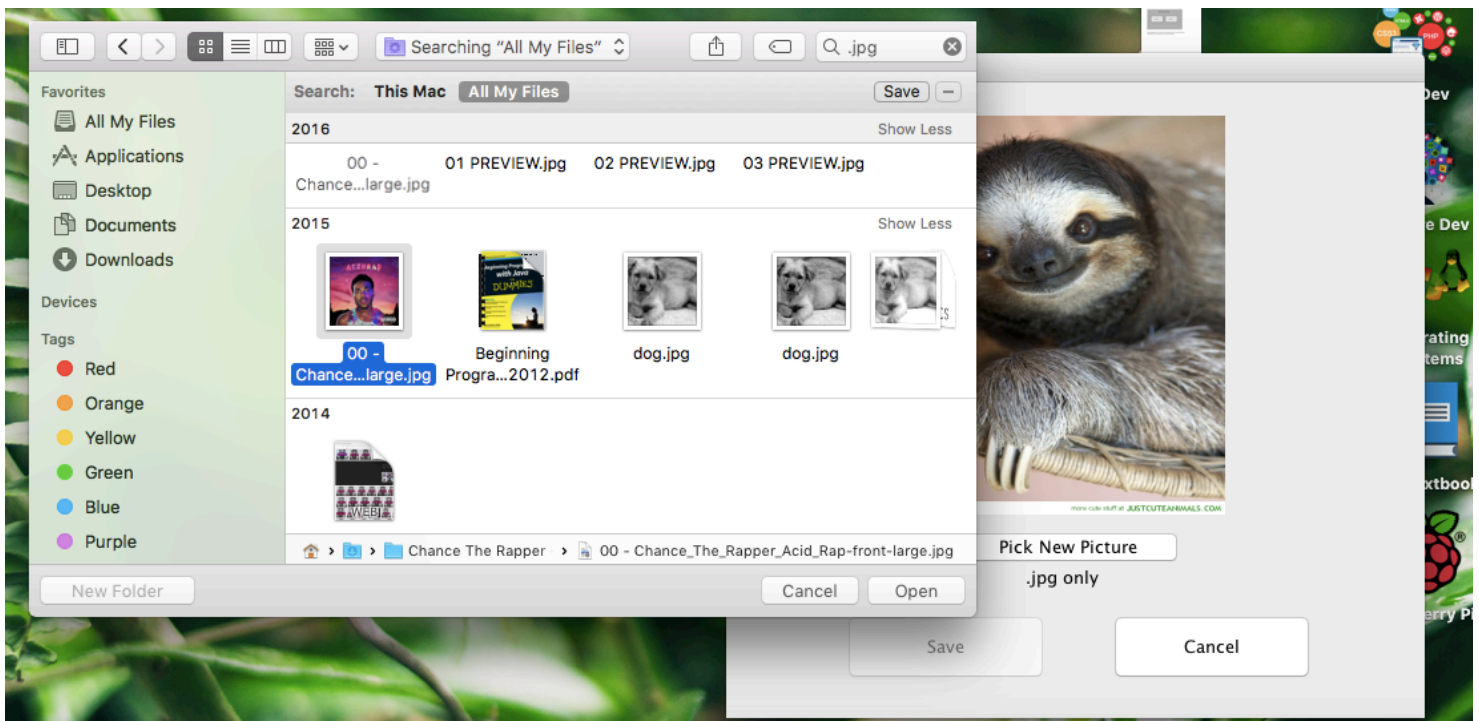

On the main screen they can click on their photo.

Then they are taken to this screen:

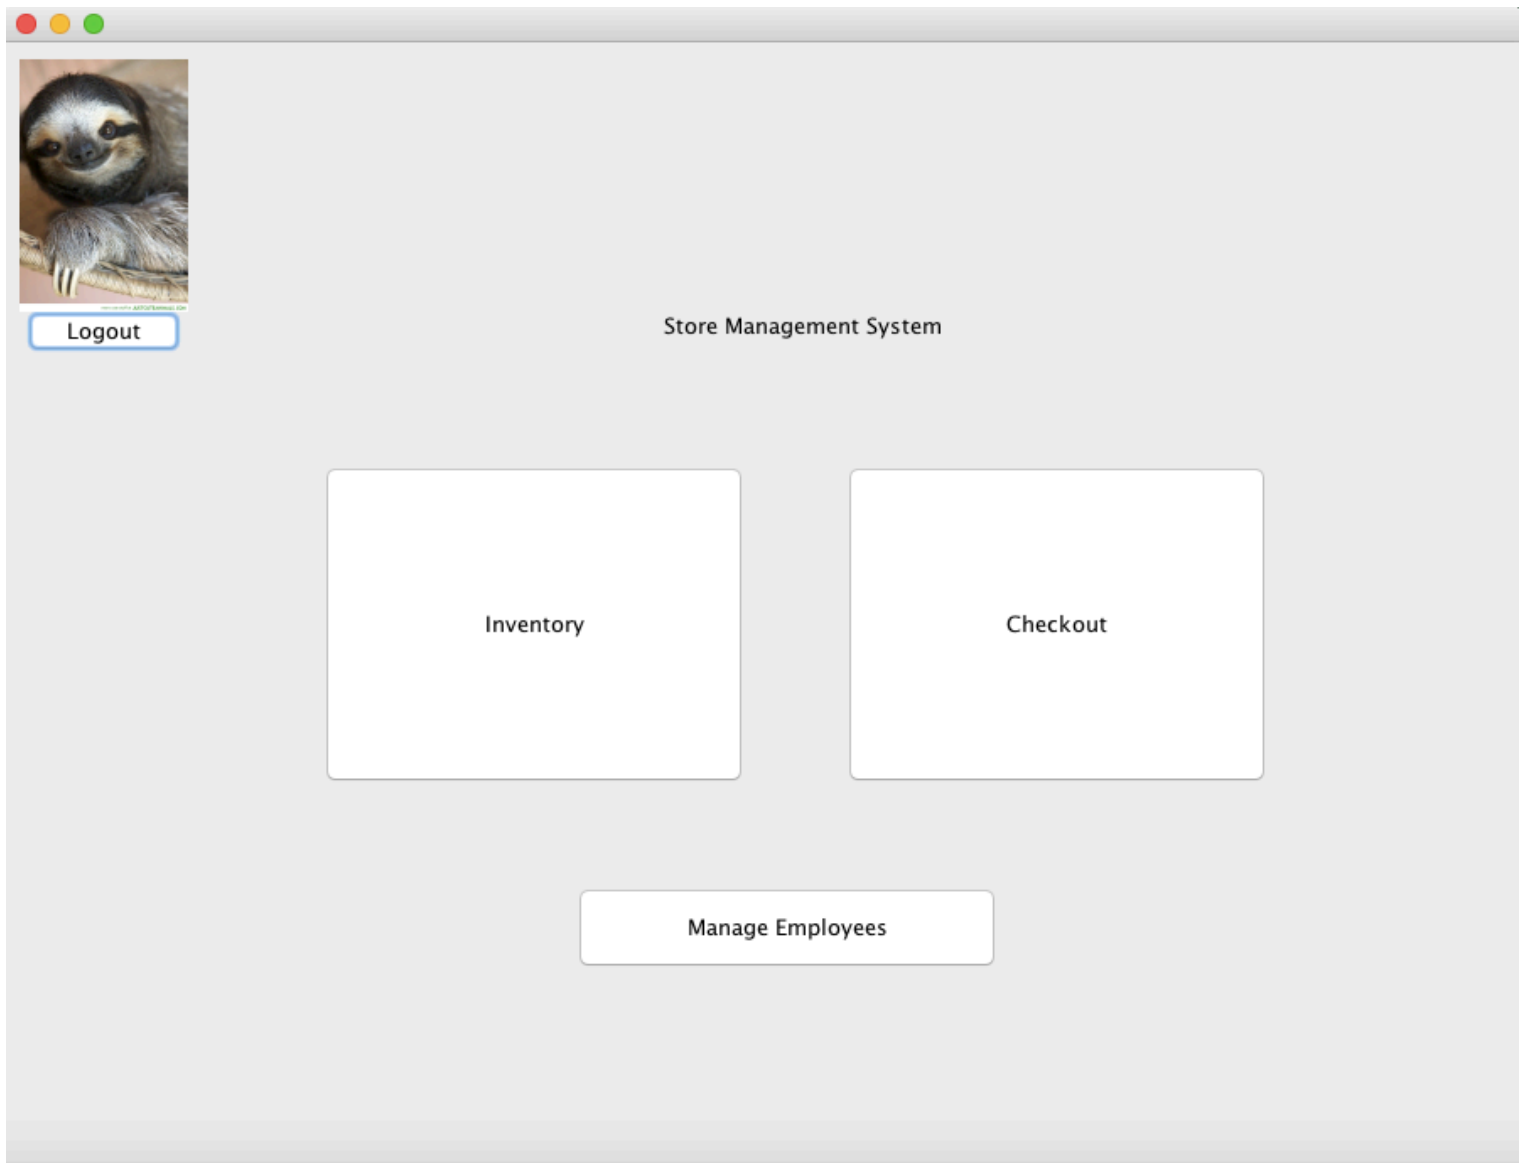

If they want to change their picture they can click “Pick New Picture”, they are shown their directory and can select their picture.

Then they simply click save and their picture will be updated.

Use Case #3: As a manager I can assign or change the access rights to other employees

The main screen of a manager looks like this:

If they want to manager their employees, they click on Manage Employees. Then they get brought to the Edit Employee screen:

Id:

first name:

last name:

status:

photo:

password:

Add User

Update User

Edit Employees

ID	First Name	Last Name	Status	Picture	Password
2	Happy	Sloth	Cashier	/home/jeff/D...	
8	Johnny	Morris	Manager	/src/Employe...	lclimb5'7s
10	Cashier	Man	Cashier	/src/Employe...	W01fp@ck
911	M-K	Smith	Manager	/src/Employe...	gypsynation

edit selected user

delete selected user

go back

They can select a user. Then they have the options of deleting the user, or clicking edit selected user. If they delete it it will disappear and remove the user from the database. If they elect edit user the left side will populate. They can make the changes and either add the user as new or just update the current user.

Use Case #4- As an employee I want to be able to return products for customers. The main screen of a Cashier looks like the following:

Logout

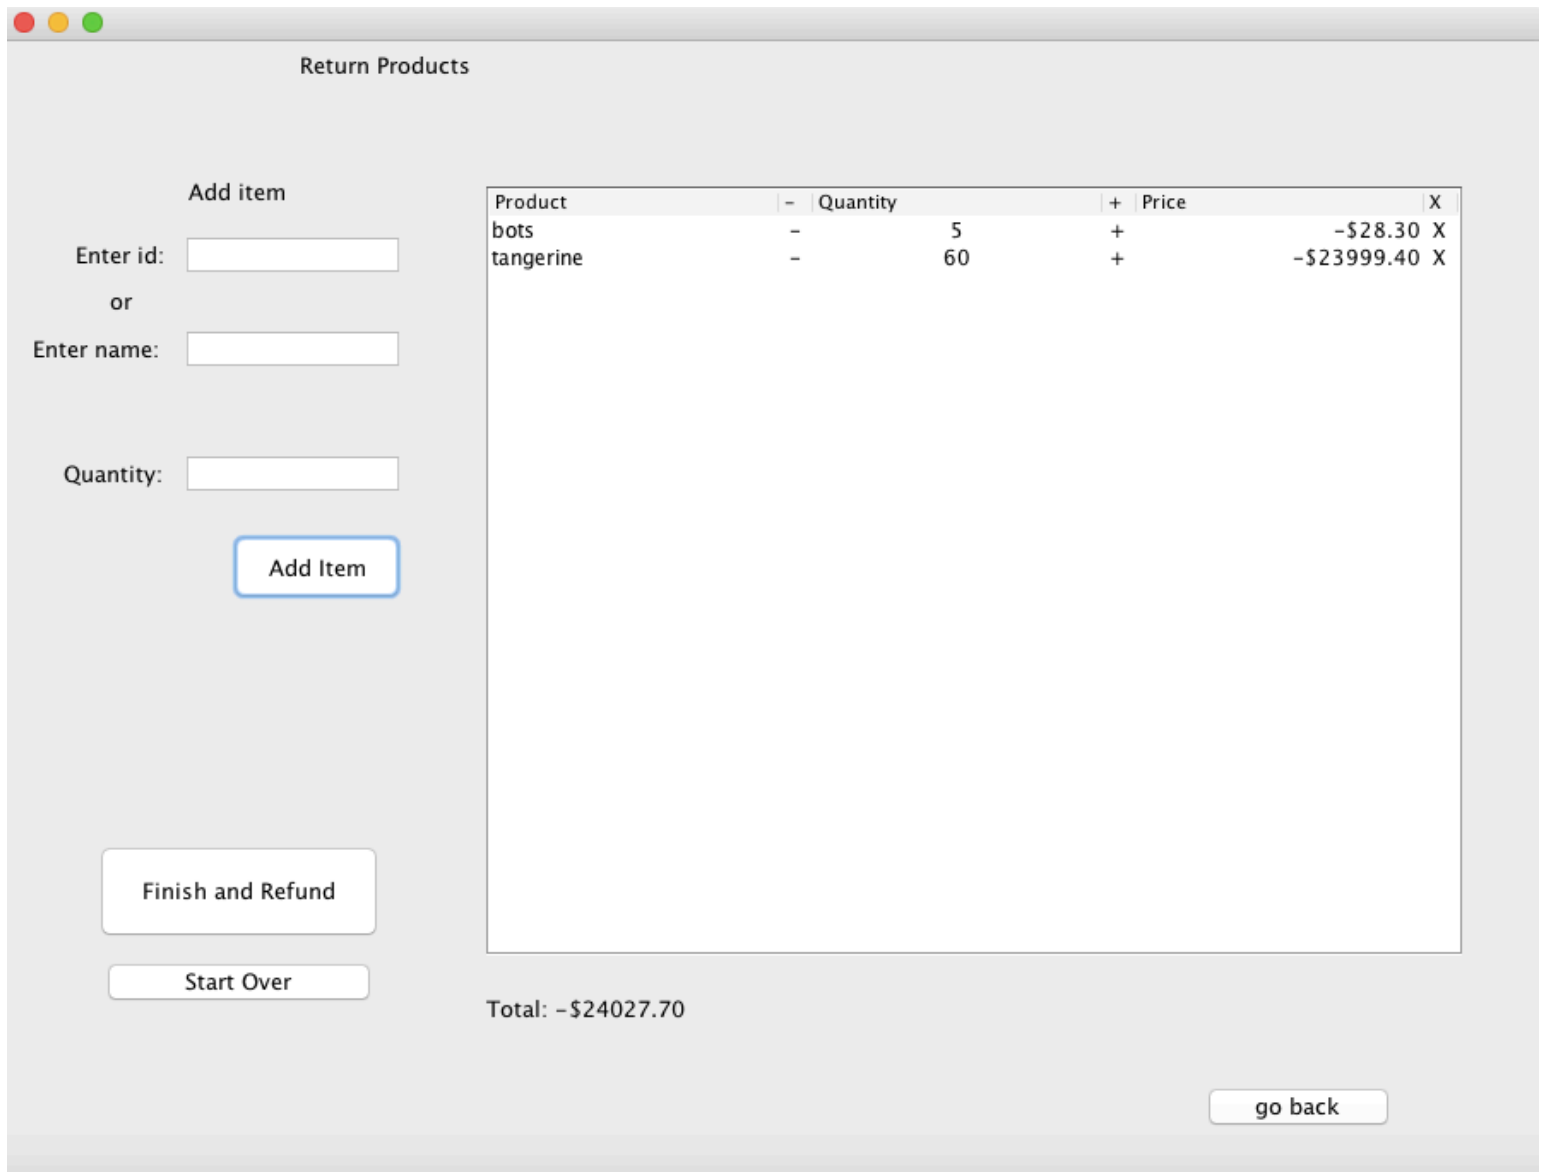

Store Management System

Return Products

Checkout

When they click on “return products” they are presented with the following screen:

The image shows a software interface titled "Return Products". On the left side, there is a form for adding items. It includes a section labeled "Add item" with two input options: "Enter id:" followed by a text box, and "or" followed by "Enter name:" followed by another text box. Below these is a "Quantity:" label with a text box. A blue-outlined button labeled "Add Item" is positioned below the quantity input. At the bottom left, there are two buttons: "Finish and Refund" and "Start Over". On the right side, there is a table with the following data:

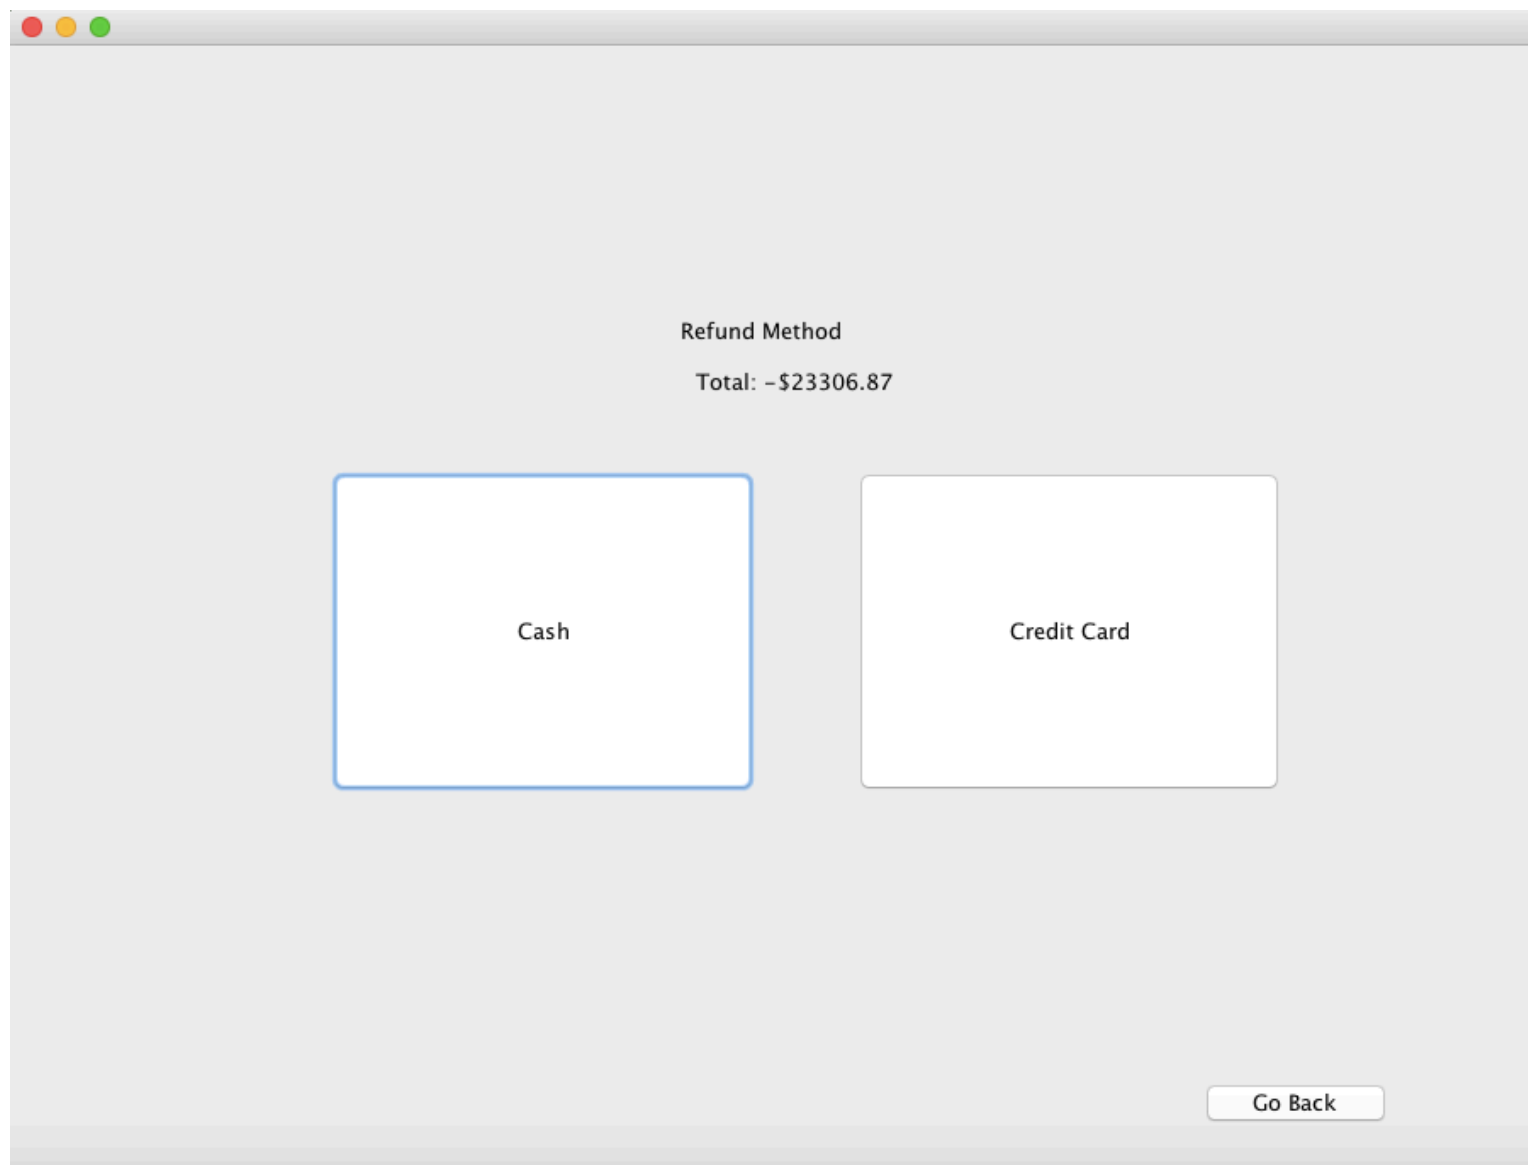

Product	-	Quantity	+	Price	X
bots	-	5	+	-\$28.30	X
tangerine	-	60	+	-\$23999.40	X

Below the table, the text "Total: -\$24027.70" is displayed. At the bottom right, there is a button labeled "go back".

They can add products to return by id or name, click add item. If they need to reset everything they can click start over.

If they are ready to return the money they click on “Finish and Refund” and will be presented with the following screen:

A screenshot of a web application window titled "Refund Method". The window has a light gray background and a standard macOS-style title bar with red, yellow, and green window control buttons. The main content area displays the title "Refund Method" in bold black text, followed by the total amount "Total: -\$23306.87" in a smaller black font. Below this, there are two large, white, rounded rectangular buttons with thin borders. The left button is labeled "Cash" and has a blue border, indicating it is the selected option. The right button is labeled "Credit Card" and has a gray border. In the bottom right corner of the window, there is a small, rounded rectangular button labeled "Go Back".

Refund Method

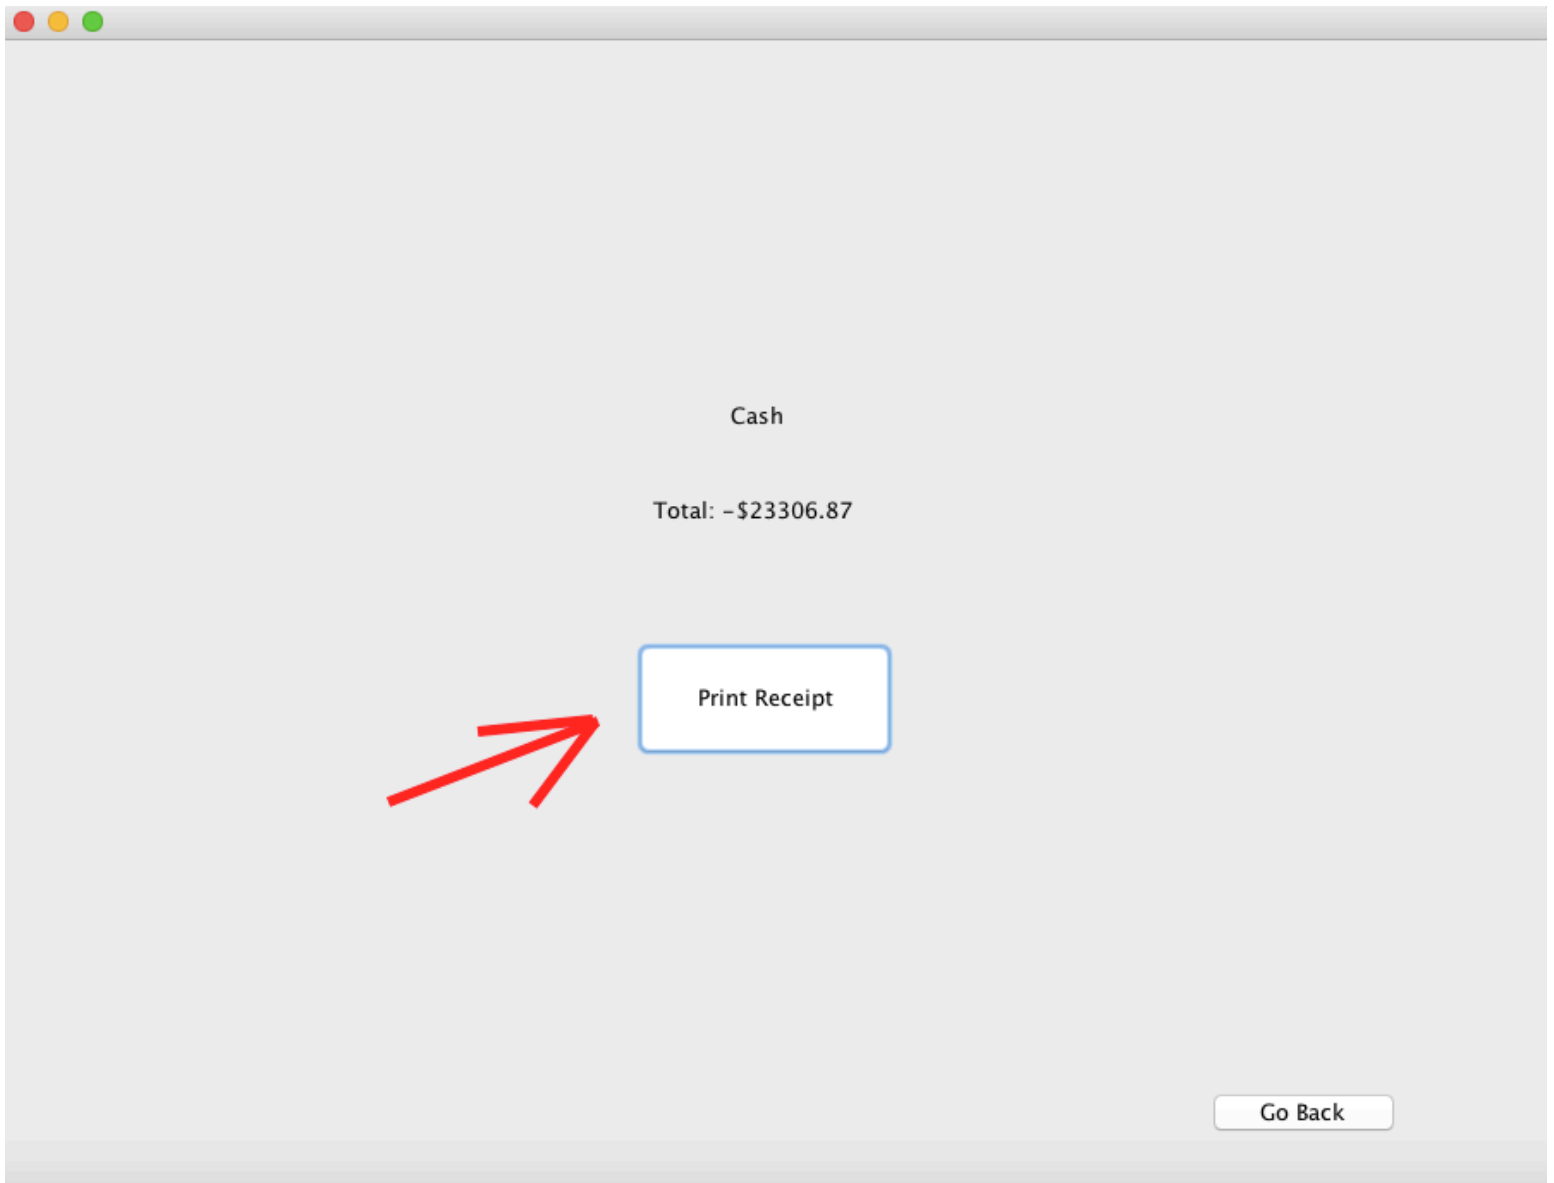

Total: -\$23306.87

Cash

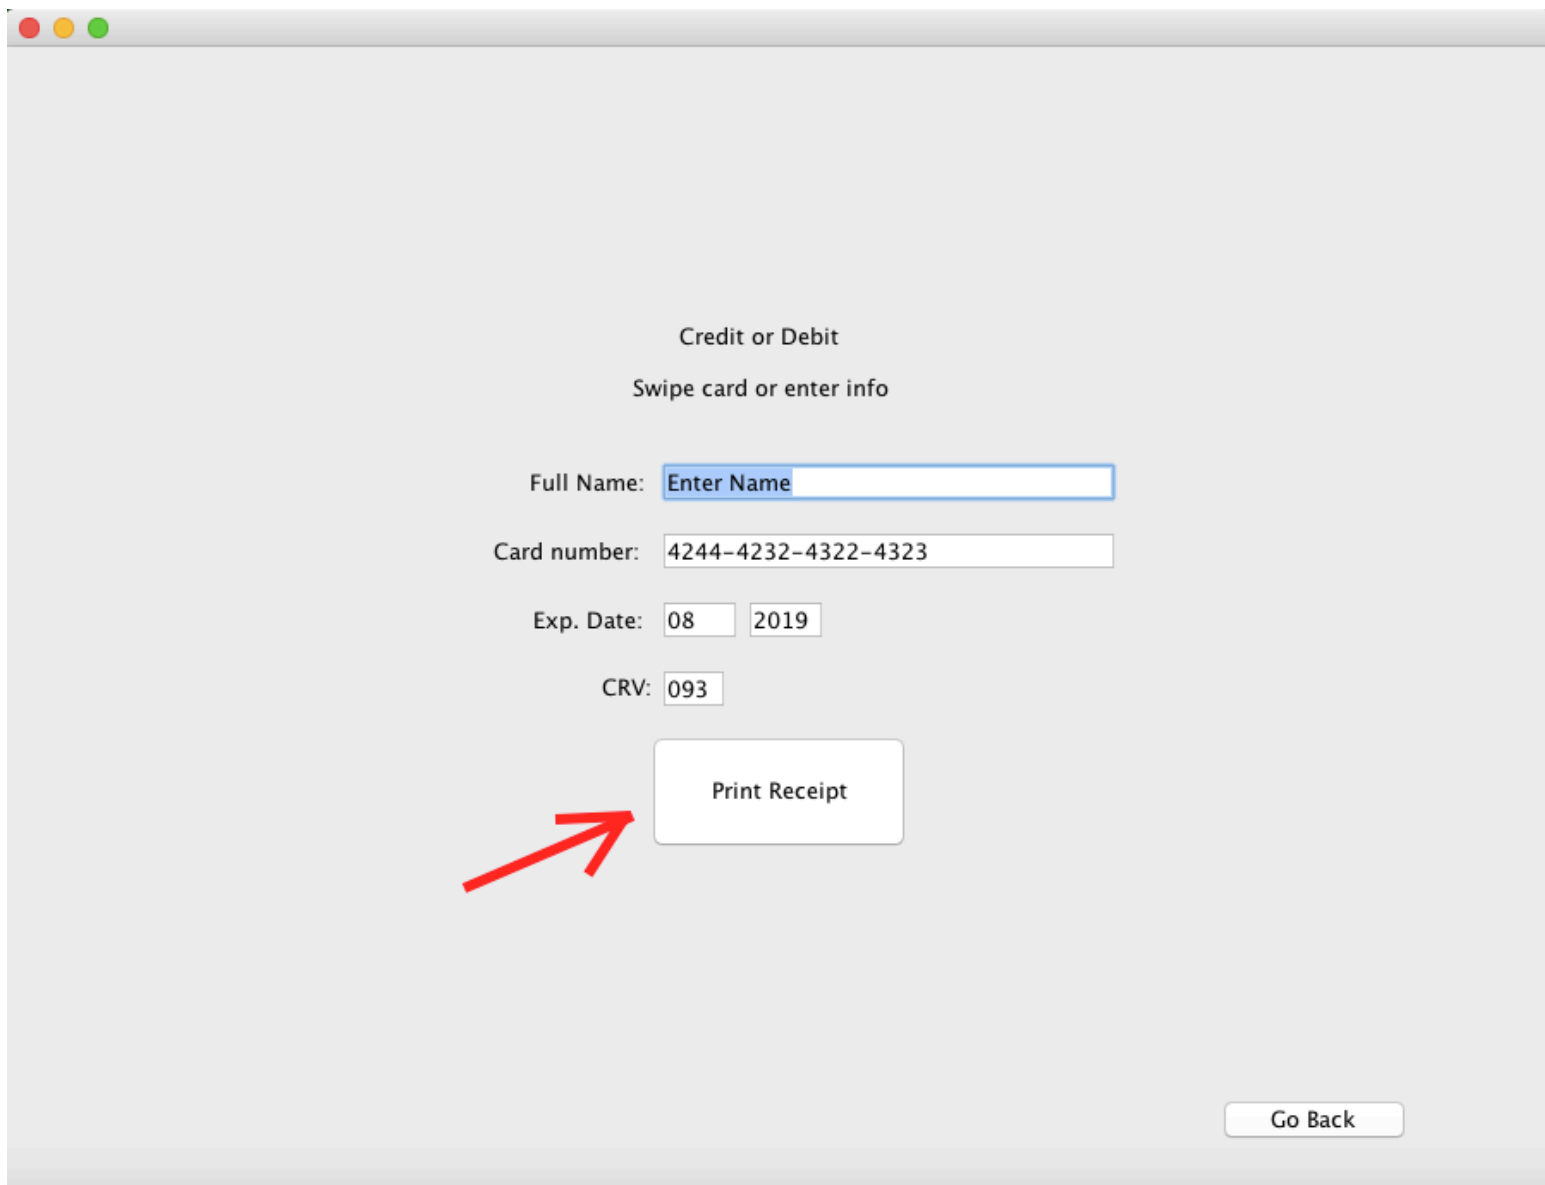

Credit Card

Go Back

They can select their refund method, either cash or credit card. The cash return screen looks like this:

If they select Credit Card they will be presented with:

Credit or Debit

Swipe card or enter info

Full Name:

Card number:

Exp. Date:

CRV:

A red arrow points to the "Print Receipt" button.

After being presented with either refund screen, selecting Print Receipt will print your receipt:

Receipt - REFUND
